GX8-Series 50W

The GX8-Series offer the best possible light for plants in an energy efficient way.

- **Typical applications**
  Professional growing, growth chambers and private growing

- **Light intensity in typical applications**
  3 ~ 213 µmol/m^2/s at 38 cm (15") height

- **Area**
 Designed for 0.3 – 0.6 m^2

Product model data
Industrial grade grow lamp for perfect blooming and rich output – outperforming all other LED grow lamps.

Average 15% faster grow and blooming than HPS.

	GX8-Series 50W
Voltage	AC: 200-240V, 50Hz
Total Wattage	50W
Lumens/w (White LEDs)	130lm+/w
Driver	Included, fixed on lamp
CRI	RA ~90
Material	Aluminium + Steel bracket
Temperature interval	-20°C / +55°C
Colour	Full spectrum + UV + IR
IP rating	IP65
Average exp. life time	50.000 hours
Number og switching cycles	100.000
Continuous working time	18 hours per day
Dimensions	315 x 238 x 130 mm
Beam angle	90° / 120° / 150x60°
Certificates	CE, RoHS

PAR Result, 50W

Height	38 cm (15")
Beam area	100x110 cm
Center lux	10010 lx

0'/0cm, 2'/61cm, 4'/122cm

Easy installation
1. 3 meter wire included
2. Powerful mounting ring
3. Adjustable mounting bracket
